Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Sunday 11 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Showers or rain developing in many areas today.

Today:
Showers, some heavy and thundery, will break out from the Midlands and East Anglia northwards into Scotland. Further south, cloud and showery rain developing over parts of Wales and southwest England spreads eastwards later. Far southeast England perhaps staying dry.

Tonight:
Early evening showers over Scotland and northern England slowly fading. Further south, some showery rain at times over southern and central England and Wales, especially over parts of southern England.

Monday:
Heavy showers again breaking out over parts of Scotland and northern England. Further south, some early showery rain with parts of southern England likely seeing heavy rain or thunderstorms later.

Outlook for Tuesday to Thursday:
Sunny spells and isolated showers Tuesday, locally heavy in the south. Mostly dry with sunny spells thereafter. Cloudier conditions and some patchy rain in the northwest later Wednesday.
